

Newsletter: Summer 2020

Dear Colleague

This year represents a challenge for us all, but particularly for educators. You've learned new skills and revised working practices to keep your learners on track for success, and of course, all whilst caring for your own families.

Given the global situation, we couldn't get to meet you at **IBO Bangkok** as we'd hoped, but we continued to work safely with home-based teams to bring you up-to-date resources ready for the start of next term. From us all at Elemi, we sincerely wish you a relaxing summer break.

Happy holidays!

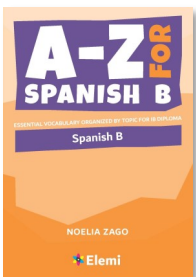

ISMLA London—what a great event!

ISMLA is an organization dedicated to supporting modern languages teachers in independent schools.

In February, we were delighted to exhibit for the first time at their 2020 conference in London. It was a pleasure to say **Bonjour!** and **¡Buenos días!** to so many teachers there.

The Maths Association review *A-Z for Maths*

We were thrilled to see a positive review of *A-Z for Maths: Applications & Interpretation* in the UK Maths Association magazine, *Mathematics in School*. Read it in full on our website.

Elemi books are helping students all over the world

As a small independent publisher, we know we have to work hard to make sure our learning resources are just what students need, and equal (or better!) the quality you see from more established publishing houses. So it's exciting for us to hear that our books are already being used in schools all over the world, including **Greece, Singapore, Canada, and the UAE.**
